

Are you interested in Migrant Entrepreneurship?

Are you interested in access to finance for underserved communities? Do you want to meet the key players in Europe? Do you want to learn from them? Would you like to influence policy makers? Are you committed to improve the entrepreneurial ecosystem for migrants & refugees?

MIGRANT ENTREPRENEURSHIP SUPPORT ACCESS TO FINANCE

**Joint conference of the European migrant entrepreneurship
support networks M-UP and MAGNET**

3-4 April 2019

Can Deu, Plaça de la Concòrdia, 13, Barcelona

3rd April we will start at 10:30 am, and 4th April we will finish at 3:30 pm

During the joint **MAGNET** and **M-UP** conference we will shed light the needs and barriers of migrant entrepreneurs, especially in accessing finance. To do this, we have invited a number of representatives from the migrant community as well as organisations supporting them in the startup and development of their business ventures. We are also reviewing the experiences of organizations providing financial and non financial services to migrant businesses. And finally, participating policy makers will share about their efforts to improving the business environment for migrant entrepreneurs as well as their pain points.

International stakeholders attending the conference will have an opportunity to contribute to discussions on practical solutions for cooperation aiming to improve the experience of migrant entrepreneurs through plenary sessions, interactive workshops and networking activities, in a warm and friendly city.
